## EDUCATION

VIT Bhopal University

Bhopal, MP

Bachelor of Technology in Computer Science

8.11 CGPA (Ongoing)

Amresh Sharma Public School

Bhilai, CG 77.8% (May 2022)

Higher Secondary(CBSE Board)

(1.1.ug ~0~~)

Gurukul Public School
Higher Secondary(CBSE Board)

Kawardha,CG 84.2%(May 2020)

EXPERIENCE

ML Intern

Jan 2025 – Mar 2025

EduNet Foundation

Remote internship

- $\bullet$  Worked closely with team for developing disease prediction outbreak model
- utilized different techniques for increasing performance and accuracy of the model
- Explored DevOps and best practices of developing and collaborating in a project on Github

Technical Intern

Dec 2024- Jan 2025

Remote internship

- Learned about technical aspect required in the field of space science
- utilized available satellite data for understanding affect of aerosols with help of deep learning and image processing
- contributed in the field of atmospheric aerosol deposition and its consequences on the pollution environment

## Projects

**GHOST** | Python, Flask, Arduino

Aug 2023 – Oct 2023

- Description: Celestial object tracking device
- Technology: JavaScript, Python, Electrical Circuits
- Mark celestial body with help of stellarium API

Ayurvedic Plant Classification system | Squential, DL, Python, Sockets

 $Dec\ 2024-Jan\ 2025$ 

- Classification model for ayurvedic plants with description about the plant using LLM model
- Integrated ollama model for LLM and fetching description for plants
- ResNet 50 and CNN are utilized for acurate prediction

LIDAR with face tracking | Python, CV2, YOLO v5

Apr 2024 - May 2024

- using ML model to detect and track unique face with LASER
- Specific face tracking and detection using LASER beam
- using ML model to detect and track unique face with LASER

## SKILLS

Python (Numpy, Pandas, PyQt5, Tkinter, Open CV, Tensorflow), SQL, C (language), HTML CSS, React, Arduino
